Superintendent

Dr. Vitti recognized Fel Lee for his service to the Duval County School Board. He thanked all for serving in the PTA and helping students and teachers. He wants a functioning PTA in every Duval county school. In regards to the resolution requesting a year- long grace period before accountability to the new standards and assessments, Dr. Vitti worries that a drop in school grades will hurt public education in Florida. By the end of next school year, all schools in Duval county will be wireless and the bandwidth and access points will be improved. An all-inclusive portal for parents to access student information will be completed in about 18 months. School level budgets will be made earlier this year so principals may plan more effectively.
