Student Voice

Student Service Opportunities

Too often, crucial public education decisions are made without the group that is the most affected by these changes: **STUDENTS!** So we have created an opportunity for the community to learn what you need to be successful so that together, we can make it happen! What can you do to make sure student voices are heard?

1. Serve as a student speaker at an event and share your definition of success. (6 service hours)
2. Assist one of our adult facilitators in leading discussions around what the community can do to support students to be successful. (6 service hours)
3. Come to the event and speak with important community members about how they can support student success. (3 service hours)

○ **Saturday, September 24**
